Samsung SPH-a680
Phone Information Brief

Product Description

Lights….Camera…..Action! Get ready for the Samsung SPH-a680 Camcorder phone from Bell!

The Samsung SPH-a680 enables customers to take advantage of Bell's new video mail service by allowing you to attach a 15-second clip with motion and sound! The mini video clips can be sent to other video messaging phones or any email address. This feature rich handset sports TWO colour TFT screens (inside & out), 300 number contact directory & lots of downloadable fun. The VoiceSignal™ software (accessed under the TALK key) use's the sound of one's voice to launch your browser, voice dial by name or number & much, much more. Look for this handset to hit your stores early October 2004.
